

# How to develop each thinking hat

## The White Hat

### Question your thinking:

*Is this an assumption or a fact?*

Before you form an opinion,  
**be the Devil's Advocate:**

*Could I be wrong? Is there another explanation possible?*

## The Black Hat

Encourage **your inner critic** (especially when everything seems wonderful):

*How could we fail?*

One playful way to anticipate „the black“ is **to ask yourself:**

*What should we do to perform below expectations?*

## The Blue Hat

Once you have a creative idea, **imagine, like in a movie**, scene by scene:

*What are the steps involved?*

*Who are the people involved?*

*What is the sequence of actions that should be taken to get where we want?*
