

# Open Mindset

## HOW TO OPEN OURSELVES TO THE IDEAS OF OTHERS

### Spot the positive

*Your idea is very creative... Is a practical idea which will surely improve the efficiency...*

### Build without contradicting

*Building on your idea, I have a suggestion on how we could implement it more easily.*

### Ask instead of criticizing

*What are the benefits that you see for..?*

*What do you find interesting about...?*

*How can we combine the benefit with our constraint?*

# Open Mindset

## HOW TO OPEN UP OUR OWN IDEAS

### **Invite opinions**

*What do you think of...?*

### **Encourage critical thinking**

*What advantages and disadvantages do you see regarding my idea?*

*What would be hard to put into practice?*

*From your experience, what obstacles do you anticipate?*

### **Encourage continuous improvement**

*How could we optimize/further improve this idea?*

*What could we add?*

*What could we modify?*

*How else can we do this?*
