

# Process used by high performing teams in the simulation

## Understand the big picture

All participants spend time to understand the challenge

## Collect all info in one place

All available info is collected in one place – a collaborative document, visible to all

## Review

All info collected is rapidly discussed

## Group

The info is grouped in logical categories

## Smallest unit

Teams choose the easiest decision as a starting point and move from simple to complex

## Testing

Decisions are tested and revised
