

What is S.A.V.I.R.O.A.D.?

A game-based workshop **dedicated to people managers** (*team managers/project managers*), who want to *improve their leadership communication abilities* and take them to the **next level**, switching from **Manager to Leader-Coach**.

What is a Leader-Coach?

A Leader-Coach combines the **role of a leader** – who offers vision, guidance, direction and the **role of a coach** – who challenges team members to attain their potential, through their own resources.

What are the benefits for your organization?

Increased
Engagement
and **Retention**
level

Feedback
Culture

Greater Impact in
1-1
Conversations

What microskills does S.A.V.I.R.O.A.D. train, on the road to Leader-Coach?

Managers discover and practice **8 microskills** that transform any conversation into a defining moment.

**Seek to understand | Appreciate | Value-based |
Integrate ideas**

Reframing | Observation | Acknowledge | Doable |

Managers become aware of the impact these microskills have on **3 essential dimensions regarding performance and people growth:**

Mind
(effective thinking)

Heart
(positive state of mind)

Hands
(action orientation)

microabiliti

S A V I

Seek to understand – the ability to ask neutral questions, without a personal agenda or a predefined answer: *"What happened? "How do you see this?"*

Appreciate – the ability to offer appreciation, either for the communication process (*"Thank you for having this conversation, it's really important that you are telling me this"*), or by complimenting a resource the other is unaware of.

Value-based – the ability to introduce a motivational "Why, behind" directions and requests, a "Why" originating in vision and values, a "Why" that makes work meaningful.

Integrate ideas – the ability to integrate ideas that are different from yours, by leveraging the positives, clarifying instead of criticizing, building on the other's ideas.

Reframing – the ability to change the meaning of a situation (*short term versus long term, problem versus opportunity, failure versus lessons learned*).

Observation – the ability to carefully observe actions and behaviors and to reflect them through feedback, without judgment.

Acknowledge – the ability to communicate that the other's thoughts, emotions and needs are understood without judgment.

Doable – the ability to guide the conversation towards specific action, that unlocks potential and helps the other progress.

Un membru al echipei tale te anunta ca trece printre-un divort dificil, iar asta ii afecteaza modul de lucru.

CE II RASPUNZI?

A Stiu cum te simti, dar nu lasa chestiunile personale sa iti afecteze munca. Toata lumea se bazeaza pe tine.

B E o situatie dificila, imi imaginez ca iti e greu. Cand ai mai trecut prin evenimente neplacute, ce te-a ajutat sa faci fata la birou?

??

Raspuns corect: B

Explicatie: Desi bine intentionate, replicile de tip "stiu cum te simti" nu demonstreaza empatie pentru ca nu poti sti cum se simte o alta persoana. Empatia inseamna sa iti imaginezi cum e sa fi in papuci celuilalt. In plus, desi menita sa transmata incredere, replica "toata lumea se bazeaza pe tine" poate fi resimtita ca o sursa de presiune in plus.

Varianta B este o combinatie de empatie (validarea perceptiei celuilalt) si trecere catre actiuni (ajutand celalalta persoana sa isi identifice resursele care il/oa ajuta sa faca fata).

S.A.V.I.R.O.A.D.

GAME 1

Your Leader-Coach Road
step by step

Participants will learn the 3 dimensions that **support performance and team development**

Mind (effective thinking)

Heart (positive state of mind)

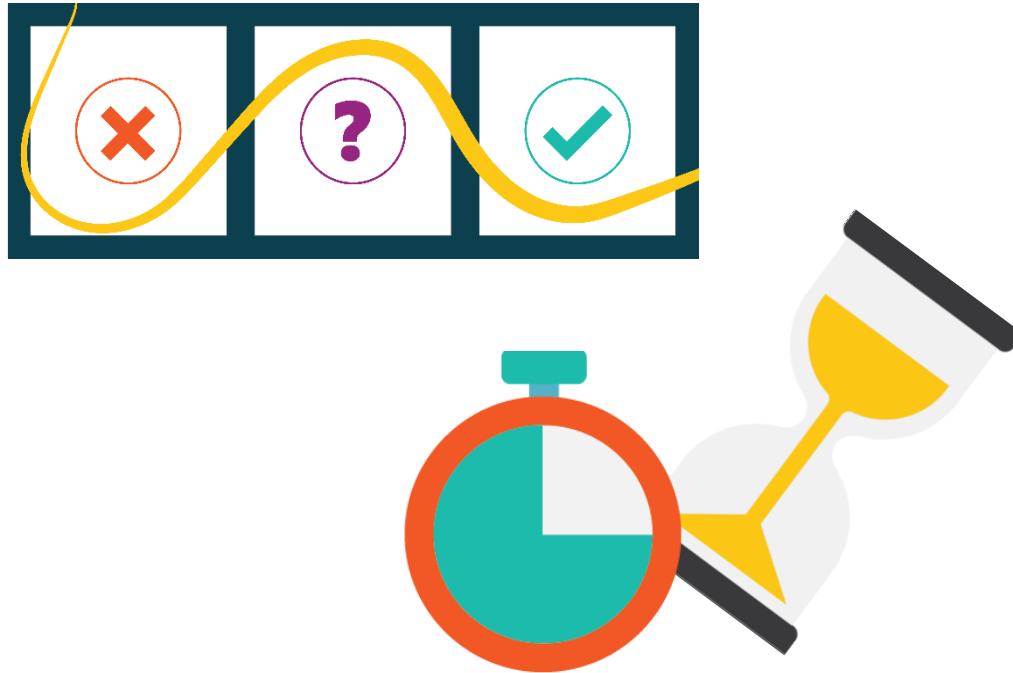

Hands (action and progress orientation)

They will become aware of the **impact their communication makes on the 3 dimensions and will learn how to design an effective response in 1-1's.**

Learning Architect

“

E normal sa te simti coplesit in perioade foarte aglomerate.

Raspuns corect: VALIDARE

©LearningArchitect

S.A.V.I.R.O.A.D.

GAME 2

Your Leader-Coach Road
on the run

Participants will **explore the 8 microskills** of a Leader-Coach:

Seek to understand

Apreciate

Value-based

Integrate ideas

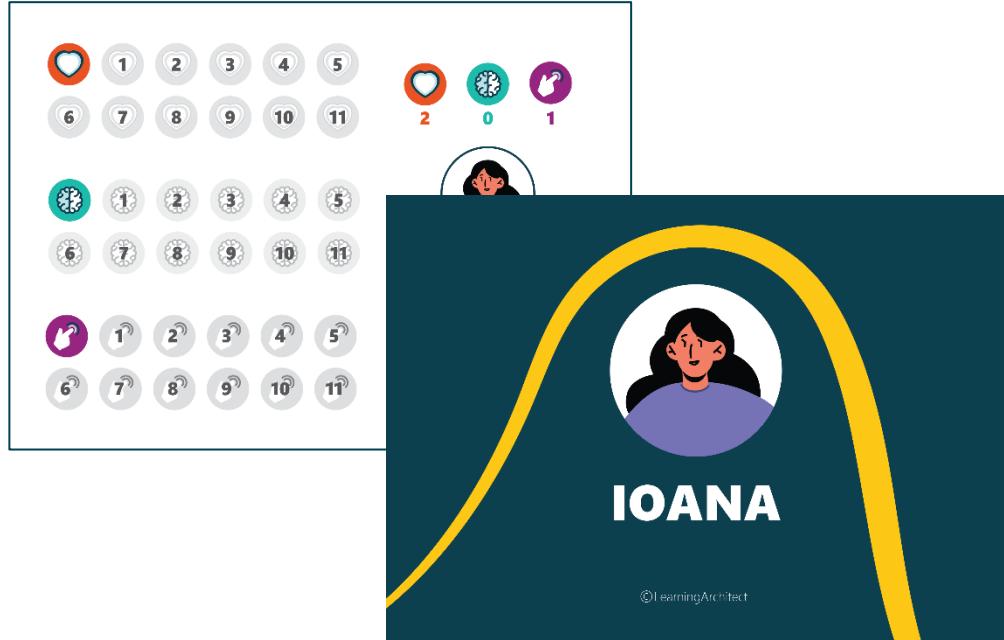

Reframing

Observation

Acknowledge

Doable

They will learn how to **identify and use them** in **any 1-1'**, formal or informal conversations, proactive or reactive.

S.A.V.I.R.O.A.D.

GAME 3

Your Leader-Coach Road in action

Participants will practice their people manager role in a **complex situation** and **simulate managing a team**.

They will apply the 8 microskills, consciously seeking to increase their team members' engagement and performance.

They will be able to **motivate** them (*by finding the right answer to their challenges*) and **support** them (*in VUCA moments that can affect the 3 dimensions of their performance*).

Participants will gain points depending on their team's level and by hiring new people.

They will become aware of the 8 microskills impact on **people performance and retention**.

Testimonials

"Workshopul #SAVIROAD este o alegere excelenta pentru leaderi (formali sau informali) si specialisti de L&D si HR. Pentru mine, experienta a fost una dinamica, din care am invatat lucruri noi si cu ajutorul careia am si sedimentat cunostinte pe care le aveam. Evenimentul a fost echilibrat din punctul de vedere al imbinarii partii teoretice cu partea aplicata. Pentru mine a fost o placere sa urmaresc trainerii ghidand participantii pe parcursul zilei, punand intrebari ce ne-au stimulat sa gandim din perspective variate. Jocurile au fost extrem de inspirate, bine realizate si de o inalta calitate. Mi-a placut faptul ca evenimentul a fost organizat live si am avut ocazia sa cunosc oameni noi"

Diana Enache, Development Coordinator, Tradeshift

"Mi-a placut aplicabilitatea imediata pe care o poate aduce intr-o conversatie cu cineva din echipa, prin expresiile din cartonase. Ce m-a pus pe ganduri (intr-un mod pozitiv) a fost partea de strategie prin jocul de final si cum o conversatie reusita sau nereusita poate crea o echipa frumoasa sau ii poate determina pe oameni sa plece. Chiar cred ca jocul poate crea multe momente de AHA pentru toti managerii."

Mihaela Petcu, Learning & Development Manager WNS Global Services Romania

Testimonials

"Programul #SAVIROAD propune o experienta de invatare dinamica, fun, colaborativa. De ce dinamica? Pentru ca alterneaza momentele de interactiune cu introspectia, cu livrarea conceptelor si cu actiunea.

De ce fun? Pentru ca programul a fost construit de o echipa extrem de creativa, care a dezvoltat 3 board games, dar nu orice fel de board games, ci unele cu replicile tale de la birou...

De ce colaborativa? Pentru ca te incurajeaza sa share-uesti, sa iti pui intrebari cu voce tare si sa auzi rapunsuri din sala.

Felicitari!"

Elena Georgescu, Leadership Development Specialist, Ubisoft

"Sa fie magie? Momentul in care o sala intreaga, de peste 80 de oameni, amuteste, integrand invatarea, facand asociatii mentale. Momentul "Aha!" colectiv.

Sa fie arta? O arta a trainerului care stie sa dozeze si sa condimenteze pastilele de invatare.

Sa fie stiinta? O stiinta a jocului, a gamificarii, a learningului creativ.

Ca fiecare sesiune Learning Architect, SAVIROAD te farmeca, te pune pe ganduri, te schimba si te ajuta, in acest caz, sa devii un lider-coach mai bun.

Merita sa particapi la experienta aceasta. Bravo, Stefania Antone & team!"

Ioana Toma, Training & Recruitment Manager, Banease Developments
